

Course Descriptions

Burnaby Central

PERFORMING ARTS - DANCE

Dance Performance

Throughout these courses, students of all ability levels will come to understand how dance concepts add depth, variety and complexity to movement. Students will progressively learn physical skills, technique and principles of movement in order to increase the variety of combinations that the movements may be performed in. There will be opportunities for students to apply imagination and inventiveness to their movement as they work cooperatively to create and perform short pieces in class, as well as perform a choreographed group piece for recital. By exploring elements of movement, students will develop physical, cognitive and social skills in a fun, engaging and creative way.

Dance Choreography

Senior students have the opportunity to study the elements of movement in order to apply them to their own creative thinking. Students will explore, create and produce different styles of movement and ultimately create their own choreographed piece to showcase at the recital. Students will progressively learn physical skills, technique and principles of movement in order to increase the variety of combinations that the movements may be performed in.
